

Why We Do What We Do

Choosing between the life or well-being of your pet and your family's financial stability is an unthinkable position that no one should have to face. Our focus is on ensuring that all pets are given the best chance possible to recover from a life-threatening medical condition or accident regardless of the financial circumstances of their caregivers. A Fighting Chance Foundation will help to offset the cost of medical care by making financial contributions to those families with the greatest need.

Our purpose is to support life-saving efforts for ill pets of the elderly, disabled and those whose total household income does not exceed the current Federal poverty guidelines.

About Us

A Fighting Chance Foundation is a 501(c)(3) charitable, not-for-profit organization based in Northern Virginia with the goal of making pet care affordable for qualifying Virginia families by subsidizing a portion of emergency or life-saving medical care for animals whose guardians do not have the necessary financial resources.

How Does it work?

When your pet needs treatment, visit your vet to get a written diagnosis, recommended course of action and estimated cost of treatment. Then visit our website to review the eligibility and documentation requirements and, if you qualify, submit an application for financial support. Your application will be assessed and, if all criteria are met, the foundation will determine if funds will be granted, based on the need and availability of funds.

Grants are limited to once per pet, per household, per year. All grants will be allocated to the veterinarian on the applicant's behalf.

To find out more about our services and the applicant eligibility requirements, email us at contact@afightingchancefoundation.org

It Takes a Village...

We partner with licensed Virginia veterinarians to help provide much needed support for pet owners in Virginia who are experiencing financial hardship and are unable to pay for emergency treatment for their pet. Some veterinarians offer reduced rates of service and A Fighting Chance Foundation helps offset the costs of treatment.

"We need, in a special way, to work twice as hard to help people understand that the animals are fellow creatures, that we must protect them and love them as we love ourselves." – Cesar Chavez
